Critics of wind energy and solar power lambast those energy resources' land use.

Yoshimi Yoshida

To make such a spurious argument, anti-renewable energy activists focus solely on the footprint of a power plant and ignore the so-called "upstream" land losses reported by the peer-reviewed article...

Third Circuit lets the Chesapeake Bay Clean Water TMDLs take effect, creating a watershed-wide regulatory response. It also has ramifications for other large bodies of water, like the Great Lakes.

Saulius Mikalonis

If water quality in the Great Lakes diminishes, it is not farfetched to think a watershed approach like the one used in the Chesapeake Bay would be considered by state and federal regulators.

Investors in downtown markets will want to be particularly cognizant of their market's supply pipeline and its potential impact on fundamentals.

Steve McAuliffe, MIRM, CSP

In the midst of the Great Recession, vacancy in the multifamily sector hit a cyclical high of 8.0 percent. Vacancy now stands at 4.2 percent as of the end of the first quarter. What these figures...
